

Expert-Led AI Professional Learning, Built for Australian Educators.

FROM SCATTERED AI CURIOSITY TO COORDINATED, SCHOOL-WIDE CAPABILITY.

AI is already in classrooms. Students are using it. Staff are split. Most schools are still working out what it means in practice.

Educator Intelligence is the **structured, year-long pathway** that turns that uncertainty into confident, coordinated action – built around the work teachers actually do: assessment, differentiation, workload, tool selection.

90%

of Australian schools have no formal AI strategy.

6/10

educators rate themselves low- to-mid confidence with AI.

2/3

want AI to reduce workload and admin.

What's inside Educator Intelligence.

WAVE 1 · NOW LIVE

01

AI First Aid

Foundational judgement and safe starting points.

02

Radical Workload Reduction

Practical workflows that give hours back each week.

03

Assessment Architecture

Redesigning tasks so rigour holds up in the AI era.

04

The Differentiation Engine

Personalising learning without the workload blowout.

05

Mapping the Tools

A clear, governance-aware way to choose what to use.

20%

OFF ACCESS

FOUNDING MEMBER OFFER

Founding member pricing through Term 2, 2026.

For individual educators and for schools licensing seats for staff.
