PATTERN PERFECTION

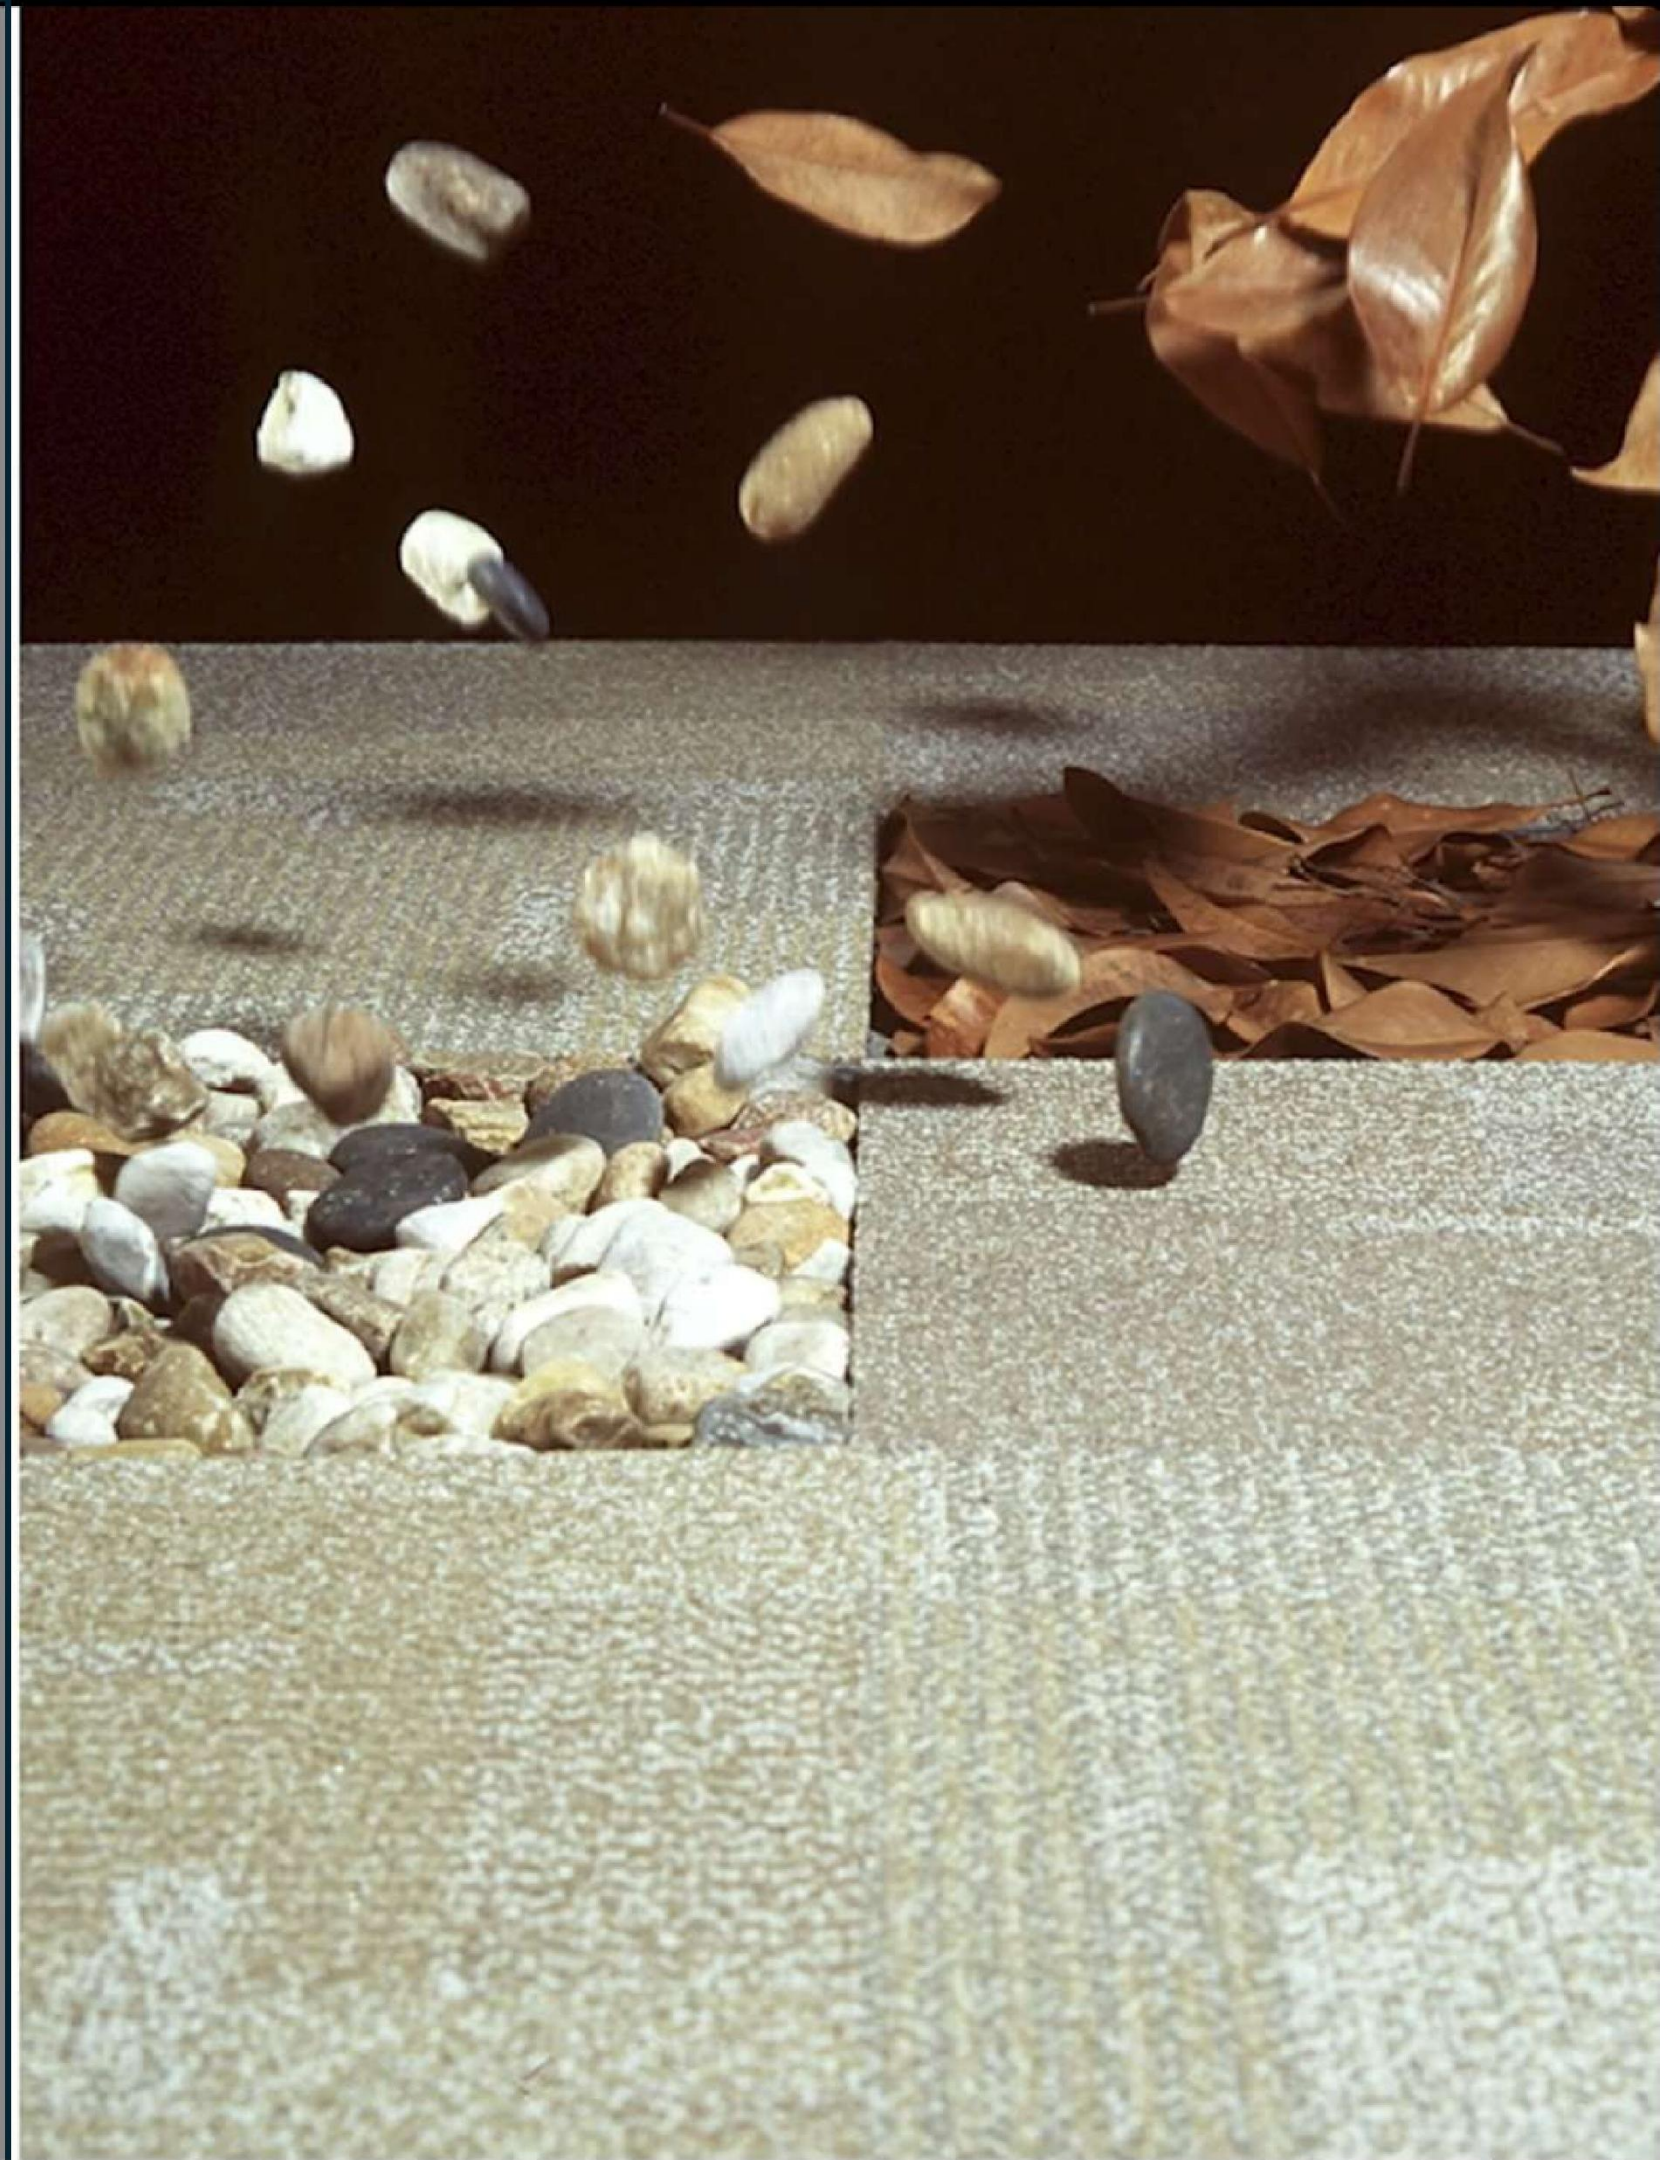

**IF NATURE DESIGNED CARPET,
WHAT WOULD IT LOOK LIKE?**

“In nature, there are no two things that are the same. There are similarities in the colours of leaves or bark, but nothing is identical.”

David Oakey

Founder of David Oakey Designs and exclusive product designer for Interface

Flexible flooring. Tile by tile. Time and time again.

A modern office lounge with orange walls, large windows, and people sitting on red and orange furniture. The room features a patterned carpet, a glass railing on the left, and a whiteboard on the wall. The text "RESILIENT AESTHETIC" is overlaid in the center.

RESILIENT AESTHETIC

SMART FINANCIAL CHOICE

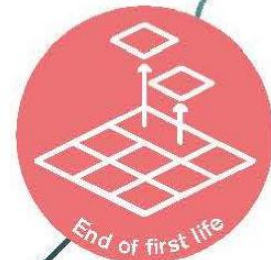

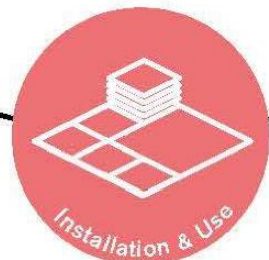

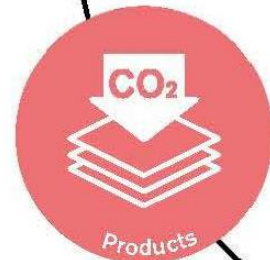

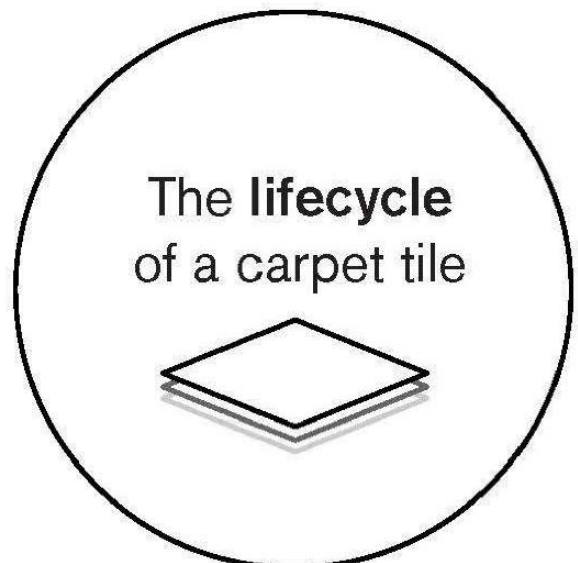

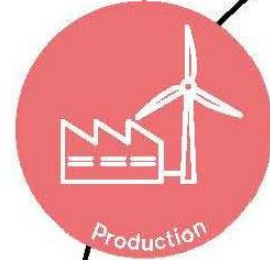

A wide-angle photograph of a modern library interior. In the foreground, two armchairs with a vibrant blue and green circular pattern are positioned on a dark blue carpet. Behind them is a long, curved white desk with several computer workstations. The background features large windows, bookshelves, and a display case labeled 'MANGA'. The ceiling is white with recessed lighting and a green LED strip along the edge.

SUSTAINABLE CONSUMPTION

ReEntry®

Materials selection based on low embodied carbon, high recycled content and recyclability

We are a RE100 member and use 100% renewable electricity to manufacture locally in Australia

Glasbac™ backed products are designed to be reused or recycled

Glasbac™ backings

Route 1
We divert your carpet from landfill through our re-use partner network.

Route 2
We send your used carpet tile for re-manufacturing into new carpet tile, supporting our circular supply chain

Collaborating with you and our partners to avoid landfill

Designed to be reused or recycled

▪ Carbon neutral for full lifecycle through our Carbon Neutral Floors™ programme.

- Low product CO₂ footprint contributes to leading green building certification schemes
- Long lasting product performance

ReEntry® >>

- Prolonged lifetime through reuse
- Designed to be fully recyclable, to make new carpet tiles for the future.
